

Assignment -4

Docker and Kubernetes

Assignment Date	21 October 2022
Student Name	VENUMADHAV C
Student Roll Number	727719EUEC173
Maximum Marks	2 Marks

1.Pull an image from docker hub and run it in docker Playground

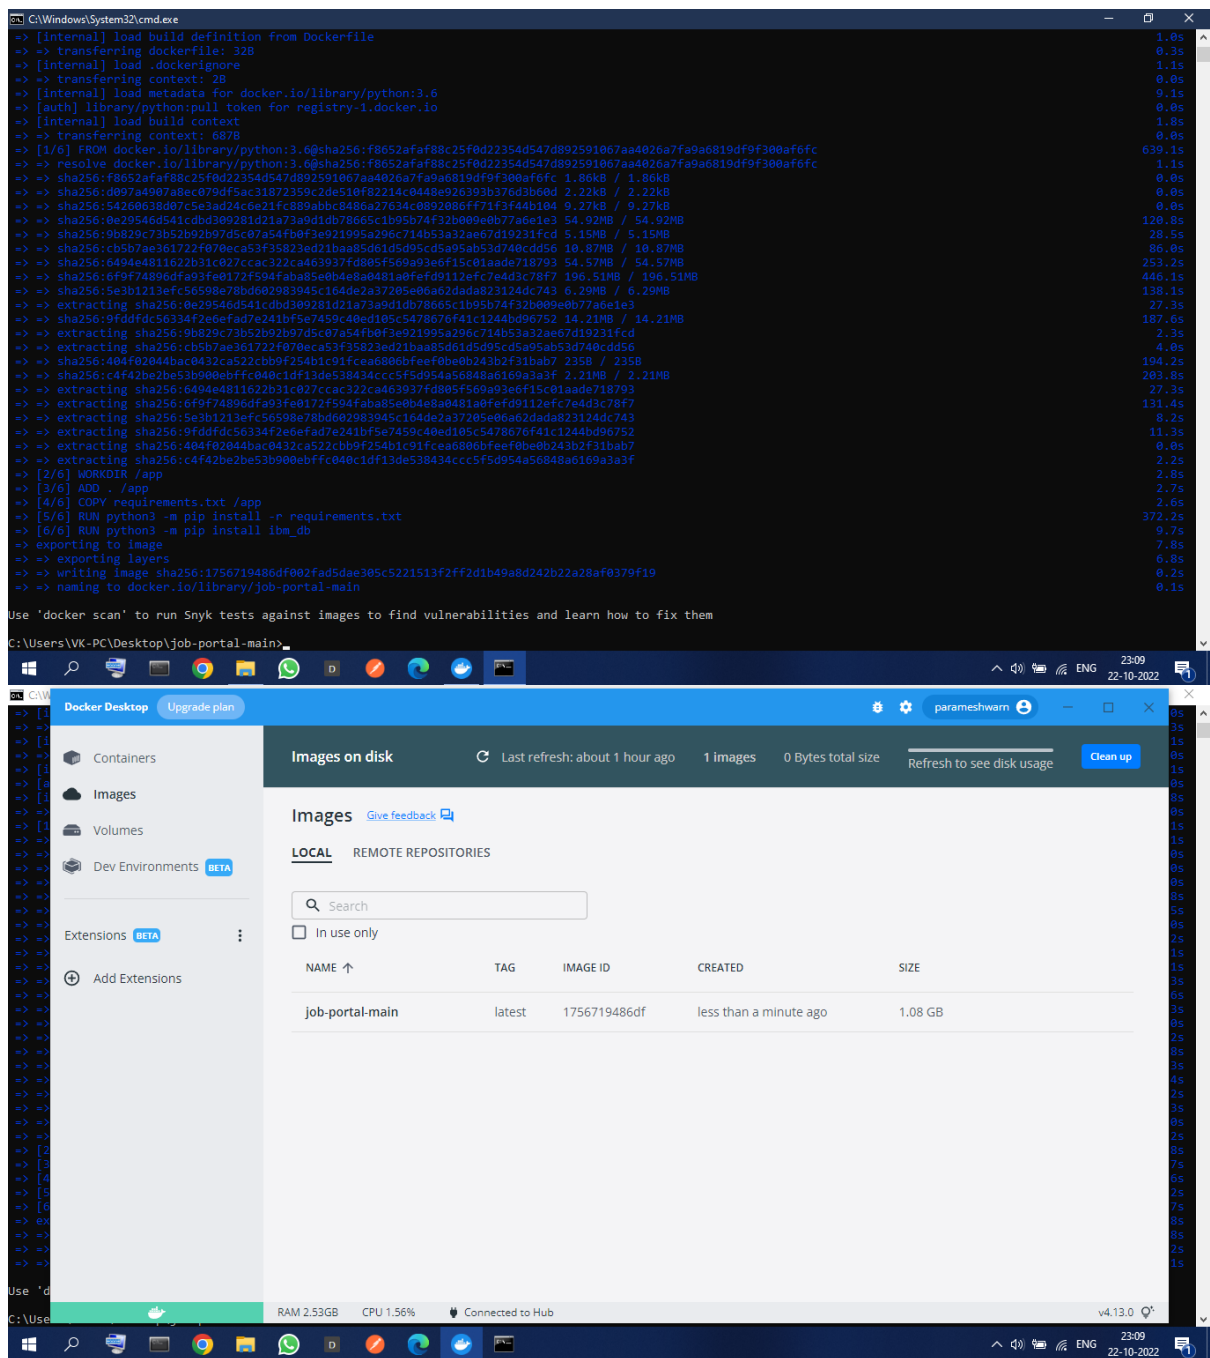

The screenshot shows a web browser with multiple tabs. The active tab is Docker Hub, displaying the repository page for `uifd/ui-for-docker`. The page indicates that the repository is deprecated and suggests using Portainer instead. A Docker Pull Command box shows the command: `docker pull uifd/ui-for-docker`.

Below the Docker Hub page, the Docker Playground interface is visible. It shows a session titled `cd9an2u3_cd9av060qau0008hbjs0` with IP `192.168.0.13`. The interface includes buttons for `OPEN PORT`, `DELETE`, and `EDITOR`. A terminal window is open, displaying the following commands and output:

```
# This is a sandbox environment. Using personal credentials is HIGHLY discouraged. Any consequences of doing so are completely the user's responsibilities.
#
# The FWD team.
#####
[node1] (local) root@192.168.0.13 ~
$ docker pull uifd/ui-for-docker
Using default tag: latest
latest: Pulling from uifd/ui-for-docker
841194d080c8: Pull complete
Digest: sha256:fe371ff5a69549269b24073a5ab1244dd4c0b834cbadF244870572150b1cb749
Status: Downloaded newer image for uifd/ui-for-docker:latest
docker.io/uifd/ui-for-docker:latest
[node1] (local) root@192.168.0.13 ~
$ docker run -d -p 9000:9000 --privileged -v /var/run/docker.sock:/var/run/docker.sock uifd/ui-for-docker

[node1] (local) root@192.168.0.13 ~
$
```

The image displays two screenshots of the 'UI For Docker' web application. The top screenshot shows the 'Running Containers' section with a list of containers, including 'beautiful_goldwasser' which is 'Up About a minute'. A 'Status' donut chart is also visible. The bottom screenshot shows the 'Containers created' and 'Images created' line graphs, both showing a count of 1 on the y-axis for the date 21/10/2022 on the x-axis. The interface includes a navigation bar with tabs for Dashboard, Containers, Containers Network, Images, Networks, Volumes, and Info, along with a Refresh button.

2.Create a docker file for the job portal application and deploy it in Docker desktop application

3.Create a IBM container registry and deploy helloworld app
